

Co-exhibitor application

Be part of our success concept and present your company, your subjects and projects and make important contacts - as a co-exhibitor at EXPO REAL.

We are pleased to see that you want to register as a co-exhibitor.

The application procedure for co-exhibitors at EXPO REAL 2018 includes some important changes and innovations. A brief overview of the most important facts:

✓ Exhibition sectors

Check the assignment of your company to the eligible [Exhibition Sectors](#) of EXPO REAL 2018.

✓ Standardized company profile

In the future every co-exhibitor must upload a [standardized company profile](#) with his application to get his eligibility checked. Fill out the company profile first and upload it with your application.

✓ Application link - the co-exhibitor URL

For your company to be able to apply as a co-exhibitor you need an application link, the so-called "co-exhibitor URL", which you receive from your main exhibitor exclusively, who gets the link after completing his own application.

Note: As soon as your main exhibitor has registered for EXPO REAL 2018, he will be able to send you the "co-exhibitor URL", but not before 02/19/2018.

Important documents

- ↘ Info-document / Exhibition sectors (82 kB PDF-document)
- ↘ Company Profile (164 kB PDF-document)
- ↘ User guide online application (2.602 KB PDF)
